THE GREAT REVOLT.

The following persons, formerly democrats, have joined the republican ranks, and will shout for Harrison, and march on to victory in November:

Benjamin Mills, of Ripley county, Indiana, who has been a democrat all his 70 years, has repented, and will vote for Harrison and Morton.

The Rev. Selah Stocking, of Rochester, New York, a veteran Methodist preacher and prohibitionist, has both feet on the republican platform this year.

A building contractor in Bridgeport Connecticut, says that he and seven of his men who each voted for Cleveland in 1884 will vote for Harrison and Morton in November.

Frank Locke, of Buffalo, collected $50,000 for the Cleveland campaign fund four years ago. This year he will do nothing, and his friends say he will vote for Harrison.

James W. Orinion, of No. 2197 Third avenue, New York, has come out in a letter withdrawing from the democracy, of which party he has been a life-long member.

Edward McDonough, a life long democrat and prominent brick manufacturer of South Bend, Indiana, has renounced Cleveland and free trade and declared for Harrison and protection.

In the school district of Weatherwax, Montcalm county, Michigan, there were formerly eleven democrats. This year there are but three, eight of them having come out for Harrison.

At the last meeting of the Harrison and Morton club of the second ward of Brooklyn, New York, fifteen men signed the roll who have never yet voted the republican ticket but will do so this fall.

Colonel John Wilson, an old democratic soldier of Mount Clemens, Michigan, and a man of much influence in his locality, is disgusted with Cleveland's pension record and will vote for Harrison.

J. H. Bunt the union labor candidate for auditor in West Virginia, who has come over to the republican party on account of the protection plank in the platform, was formerly president of the Ohio Valley trades assembly.

Four years ago over 300 of the custom-house brokers in New York voted for Cleveland. Recently an effort was made to form a Cleveland and Thurman club of these brokers, but it failed. They are to nearly solid for Harrison and Morton.

Wilson J. Hunter, of Elgin, Illinois chairman of the democratic central committee of Kane county, and a democrat for thirty-five years, is disgusted with Cleveland and asserts that he cannot vote for him again under any circumstances.

George Miller, president of the Buffalo car-works, gave $10,000 to the democratic campaign fund four years ago, carried a torch, and worked at the polls. This year he is dead set against Cleveland and has gone to Europe to stay till after election.

At Lansingburg, N. Y., twenty-four firms in brick-making have issued a formal declaration against Mr Cleveland. It embraces all but two firms in town and five life-long democrats—Owen Dennin, James O'Neil, James Reed, William J. O'Brien, and John Reilly.

Henry Gallagher, superintendent of the construction gangs of the United Pipe Lines at Mount Alton, Pennsylvania, and a life-long democrat, has renounced Cleveland and his free trade views and will cast his first republican vote for Harrison and Morton next November.

The following gentlemen who live in Grand Ledge and Sheridan, Michigan, voted for Cleveland in 1884, and are well-known democrats, but they will vote for Harrison this November. The cause of the change is due in part to the attitude of the democratic party on the tariff and also on account of the president's actions in regard to the soldiers. At Grand Ledge: John F. Simpson, Christian Kebler, Andrew McPeek, Er A. Marvin, Edward Spiers, George F. Brown, Leon Turner. At Sheridan: Dr. S. M. Gleason, Jimmie Jame, George Shoup, Charles Kidder.

THE WAGE WORKERS' LEAGUE.

It will be seen from a published call in this impression of the Gazette that the wage workers of Janesville propose to form a league, "which shall have for its object the advancement of the party most devoted to our interests." They also state in the call that they "believe that our interests will be best promoted by a continuance of the wise and just policy of protection, which protects and fosters American industries and encourages home production, thereby insuring to us American wages, and protecting us from competition with the pauper labor of foreign countries, and also believe that the election of Harrison and Morton, the uncompromising advocates of the principles of protection to American labor, will best insure the desired result."

The wage-workers of Janesville deserve congratulation for the wise step they have taken. The system of protection has made this country the admiration of the whole world. The wage-workers of no other country on earth have the same advantages or receive as high wages as those in the United States. Their earnings are fifty per cent. greater than in any free trade country, while the comforts of home and the social and political condition that surrounds them are incomparably beyond the wage workers of other countries. And it is well for the wage workers of this city that they have decided to form a more perfect union, to show their interest in protection, to study its principles, to learn its effects upon wages and prices, and to ascertain the spirit, purposes and aims of the two political parties on this question. It is a question of all-importance to all wage workers. Any question that touches a man's daily bread or his home or his progress in life, is supreme to him. Protection is that kind of a question, and it is so easy to understand by the light of history and experience, that the wage workers league will find it one of absorbing interest.

It is understood that no attempt was made by the leaders in the wage worker league movement, to secure the names of all wage workers in the city, or even a majority of them, but to simply obtain a few of the representatives of that class of workers, and who are voters. The effort has been crowned with signal success, and those who have been enrolled as members of the league merit the highest praise for their intelligence and patriotism.

NAMED THE WRONG MAN.

The democratic papers that have been searching for republicans who have deserted their party and are for Cleveland, are having a hard time of it. Republican converts to democracy are as scarce as hen's teeth. But once in a while the democrats will hear of a republican who voted for Blaine in 1884, and to amuse themselves they bring him out as a new convert to democracy. But even this kind of a gun some times kicks the men who fire it. Among the republicans who have been credited with turning their backs on the republican party is James Dick, of Westfield, in this state. He didn't like to be misrepresented, and addressed the following note to the Milwaukee Sentinel:

To The Editor of the Sentinel:

The Journal of your city of Sept. 26, has this item: "Mr. James Dick, one of the Tippecanoe supporters, and a life-long republican, is out this morning and hurrahing for Thurman." I wish to say that this statement is not true, except that I am a life-long republican, and I certainly shall, if living, vote for Harrison and Morton in November. I was 78 years old last May, and I voted for Wm. H. Harrison in 1836 and 1840, and have always voted the republican ticket since said party was organized, and I am proud to be known as a republican. Meeting on the 24th inst. Mr. John Hamilton, a young man, and knowing him to be secretary of the democratic club at this place, I asked him why he was not hurrahing for Thurman. From this circumstance he has manufactured the false report mentioned above.

If this is the manner in which the democrats intend to elect Cleveland and the balance of the democrat ticket it is time the good people of the country understand it. Yours for truth and justice.

JAMES DICK.

Westfield, Sept. 27.

By such misrepresentations as these do the democrats hope to elect Cleveland. But that hope will be blasted. The "campaign of information" is being turned into a campaign of misstatements, but it won't succeed. It is just as certain as anything earthly can be, that Harrison and Protection will win this fall.

SOME ABSURD COMPARISONS.

Mr. A. M. Valentine, in a communication to the Recorder, has given a table of differences between the present tariff and the Mills bill, which, to say the least, is quite absurd. He has computed the tax upon the retail price of the article named, which is certainly a novel way for a government to obtain revenue. If Mr. Valentine will revise his table and make his computation upon the original cost of the various articles as is done by the tariff and the Mills bill, and to the result add freight, insurance, breakage, commissions, wholesalers' and retailer's reasonable profits, he will give the readers of the Recorder a more intelligible table than the one referred to, though he will hardly satisfy the average citizen of Janesville that he can save $84.29 per year by voting for the Mills bill.

That Mr. Valentine should have fallen into the error of calculating duties upon retail prices is not surprising as his file leader, Colonel Vilas "blazed the way for him". The latter, in his fair ground speech, was quite ridiculous in discussing percentage and the tariff, and he fell into the blunder of telling how the democrats wanted to save 150 per cent. on some articles, which, according to his figures, would give consumers the articles free and a bonus besides.

But while Mr. Valentine was preparing his table he should have explained the cook stove question and answered the questions, the Gazette asked him the other day. He seems to be timid on that one point since his attention was called to it, and therefore the Gazette takes the liberty of giving him some "elementary instruction," by saying that there is no duty on cook stoves, that the cook stoves or ranges such as are used in this country, are not made in Europe and are not used there, and therefore are not imported.

THE WHEAT CORNER.

"Old Hutch" Still Squeezing the "Shorts" at Chicago.

FRIDAY'S DEVELOPMENTS ON THE BOARD.

Wheat Jumps Up to $1.50 Per Bushel—Some Trades Unofficially Reported at $1.80.—A Chance That It May Reach $2.

HUTCHINSON'S IMMENSE PROFITS.

CHICAGO, Sept. 29.—There was a large crowd of excited sight-seers in the galleries of the Board of Trade yesterday when the opening took place. There was only mild business at the start. The first bids made for the September future was at $1.30. A lot of 10,000 bushels was sold at this price by W. R. Linn, who is supposed to own what little cash wheat there is in Chicago that has not been bought and paid for by Hutchinson. A few moments later $1.37 was quoted. Then old "Hutch" himself sent word to the crowd that he would buy at $1.41 or sell at $1.50. This drove the price to $1.40 with still no wheat for sale. The market climbed slowly till $1.50 was marked on the big dial. This was the price that Hutchinson the day before had announced he would settle at.

The crowd greeted it with a mighty yell. But still no wheat met the frantic bids of the shorts. Some small trades were recorded at $1.55, then to $1.60, and thence by rapid stages to $1.71, where a sale was reported. The price continued upward until $1.80 was touched. These latter prices were unofficial, but are known to have been reached. The market finally went back to $1.50, which continued to be the nominal quotation sent out by the ticker during the rest of the session.

The market weakened before the close, and the last prices of the day were: September, $1.49½ cents; October, 98¾ cents; December, 98¾ cents; May, $1.00¾. Mr. Hutchinson is said to have remarked before leaving the floor that those who bought of him on Saturday will have to pay $2 for it. It is not generally thought that such a price will be paid.

Shortly before the bell announced the closing time Mr. Hutchinson walked down stairs. Some of the glances that followed him were far from pleasant; some of the language used against him was rough. "He has killed the trade," said a commission man.

One of the oldest members observed: "'Hutch' claimed at the beginning of this thing that he never ran a corner and never would. Has he forgotten 1887?"

In this year Hutchinson ran wheat up from $1.20 to $2.32 in a month. He drove all the shorts in, and before the crew suddenly began selling, breaking the price down 70 cents in an hour.

Hutchinson's brokers were very active all day yesterday. They were large sellers of corn and also of October wheat. His profits so far on the deal are figured out to exceed $1,000,000. Yesterday he got a check through the clearing house for $675,000.

On good authority it was given out at noon that J. B. Lyons is interested with Hutchinson in the present squeeze. Lyons will be remembered as the operator who engineered the biggest corn corner ever known in this country. It laid him out, however, and for some years he has been laying low. When asked as to his connection with the present deal he smiled in a knowing way and intimated that he was in the town once more. In times past he had the reputation of being the best manipulator of cash markets in the country and hence his supposed connection with the present causes general uneasiness.

The daily inspection report shows that only 66 cars of contract wheat have been entered during the past twenty-four hours, out of total receipts of 190 cars. This is a very light showing in view of the price, and entirely reverses the conditions of the closing days of the great Harper deal, when the clique was buried out of sight by the abnormal arrivals of cash supplies. The general impression is that Hutchinson will keep the market at $1.50 in order to compel settlement at those figures.

FORCED TO THE WALL.

Williams, Black & Co., One of the Strongest Banking and Brokerage Firms in New York City, Fails—The Liabilities Heavy.

NEW YORK, Sept. 29.—Williams, Black & Co., general brokers, members of the Produce, Cotton and Coffee exchanges, and bankers at No. 1 William street, and supposed to be one of the strongest houses in the city, were posted on the Produce Exchange ten minutes before the closing hour yesterday as unable to meet their engagements. The news caused the greatest surprise, but came too late to affect markets. The firm say they expect to settle up in full to-day. No definite statement of their liabilities could be obtained, but disinterested parties say they will probably reach up in the millions. The firm have been dealing largely in wheat, and were probably caught in the Chicago squeeze. The house was founded in 1865.

BIG REAL ESTATE DEAL.

German and New York Capitalists Buy 700,000 Acres of Dakota Land.

BISMARCK, D. T., Sept. 29.—During the conference between the officials of the Northern Pacific road and the Territorial officials with regard to the payment of the Northern Pacific tax it was learned that the company has recently negotiated a sale of 700,000 acres of its land grant. Fifty thousand acres of this land will be selected this fall and the remainder next year. The names of the purchasers have not been made public, but it is understood they are residents of New York and Germany. German capital is largely interested in the road, and it is believed that through the influence of Henry Villard the sale has been made. It is the largest land deal ever made in the Territory.

The Campaign Ball.

WASHINGTON, Sept. 29.—The Harrison and Morton ball arrived yesterday and last evening was rolled from the Peace monument to the National Republican League headquarters, where speeches were made by prominent Republicans. The streets were lined with crowds of people, who shouted and cheered as the unique political exhibit passed by. The Marine Band and local political organizations with torches preceded.

Couldn't Find the Culprit.

BERLIN, Sept. 29.—The police were unable to find after searching the office of the *Deutsche Rundschau*, any paper showing who furnished the abstracts of the late Emperor Frederick's diary.

The chief agent in lengthening life by producing perfect health, is Vinegar Bitters.

CORN IS KING.

This Year's Crop the Largest Ever Raised—The Entire Agricultural Product of the Country Valued at $100,000,000 More Than That of Last Year.

NEW YORK, Sept. 29.—R. G. Dun & Co.'s weekly review of trade says: Doubt about the corn crop has vanished. Estimates vary either way from 2,015,000,000 bushels, but it is doubtless the largest crop ever raised. The increase of more than 550,000,000 bushels in this crop far outweighs in value any loss in the yield of wheat, and also any possible loss in the yield of cotton, but the yield of oats is also the largest on record, and the yield of hay and potatoes excellent. It is safe to say that this year's agricultural products will represent, at least, $100,000,000 more money than last year's, at average prices for both. In view of this great gain in the actual production of wealth, it is natural to expect increased activity in business and manufactures, but as yet the improvement has been but moderate.

The fact that failures continue in large numbers for the season is not to be overlooked, the September reports showing about 770 in the United States against 644 last year. Business failures during the last seven days number for the United States, 186; Canada, 34; total, 220; compared with 238 last week and 197 for the corresponding week of 1887.

FOSTER'S FOLLY.

The Absconder's Defalcation Will Reach Nearly $200,000—No Trace of the Missing Man.

NEW YORK, Sept. 29.—The trustees of the Produce Exchange gratuity fund found another forged mortgage amounting to $25,000, which makes Foster's defalcation aggregate $103,000. It is believed that no further forgeries will be found. Foster has not been traced. His property has been attached.

The forgeries are the theme of conversation on the exchange and there is considerable speculation as to what the fugitive's father, one of the oldest members of the exchange, would do in the matter. The amount stolen is about fifteen per cent. of the total fund, and unless the same is made good, each member will lose about $1,200. It is believed, however, that Foster, Sr., will make good the loss, as it was through him principally that his son was made counsel for the exchange. A member of the exchange said he was astonished at Foster's action. He could not understand how men having an income of $10,000 per annum, as Foster had, could be so foolish to act as he did. At the death of his father young Foster, if he lived, would undoubtedly get $1,000,000. If he wanted money he could have obtained it on his expectations from his father.

A TOWN WIPED OUT.

Fire Visits the Village of Romeo, Wis., and Leaves but Four Buildings Standing in the Place.

SPENCER, Wis., Sept. 29.—The small hamlet of Romeo, three miles north of here, has suffered a repetition of the disastrous fire of 1886. The large saw-mill, 10,000,000 feet of lumber, boarding house, stores, barns, blacksmith-shop and dwelling houses were totally consumed. Only four buildings are left standing and the loss to Mr. Vanhoosear, who owned the property, is in the neighborhood of $135,000, with some insurance. The fire was undoubtedly the work of incendiaries, and the feeling among the men who are thrown out of employment is very bitter against them. The mill will not be rebuilt.

Irish National League.

LONDON, Sept. 29.—The annual meeting of the Irish National League of Great Britain, which will take place at Birmingham to-day, promises to be imposing in its proportions and important in respect of its deliberations. Mr. Thomas Power O'Connor left London last night for Birmingham, and will preside over the meeting. Mr. O'Connor stated to a reporter previous to his departure that the position of the league, both in Ireland and Great Britain, with regard to finances and membership, was never stronger than now, nor have the leaders of the organization ever been more powerful.

Unable to Move the Freight.

PHILADELPHIA, Sept. 29.—The Pennsylvania railroad is doing a heavy freight business, and the rolling stock is under high pressure. The officials find great difficulty in transporting the freight owing to the scarcity of cars. A large amount of freight is awaiting transportation on every part of the company's lines, and efforts to remove it as rapidly as possible will be made. The company has placed orders for 1,500 additional box-cars, which will be built immediately.

The Rate War.

ST. LOUIS, Sept. 29.—The Eastern passenger rate war still continues, and another cut of $1.50 was recorded yesterday. There is no sign of a truce, and a one dollar rate to New York is thought to be not unlikely before the end is reached.

Circus Employes Killed.

PITTSBURGH, Pa., Sept. 29.—Sheeny Morgan, aged 29 (white), of Camden, N. J., and Sheeky Burford (colored), of New York State, canvasmen of Forepaugh's circus, were run over and killed in Allegheny City while loading the wagons.

End of a Long and Useful Career.

AUGUSTA, Me., Sept. 29.—Russell Eaton, aged 88 years, the oldest journalist in Maine, founder of the Kennebec *Journal*, president of the Kennebec Savings Bank and formerly owner of the *Maine Farmer*, is dead.

For Congress.

Congressional nominations on Friday were as follows: Sixth Illinois district, George Richardson (Pro.); Seventh Kentucky district, A. M. Swope (Rep.); Thirty-fourth Pennsylvania district, Jefferson Duncan (Dem.).

To View the Landscape O'er.

DENVER, Col., Sept. 29.—The Southern Ute Indians have consented to appoint a delegation to go with the commissioners and look at the Blue mountain country and see if they want it as a new reservation.

UTAH'S ADMISSION.

It Is Opposed by a Majority of the Commission.

PRINCIPAL POINTS IN ITS REPORT.

It Urges the Complete Eradication of Polygamous Practices Before She Is Taken Into the Fold—General News from Washington.

AFTER THE MORMONS.

WASHINGTON, Sept. 29.—The majority report of the Utah Commission, signed by G. L. D. Godfrey, A. B. Williams and Arthur L. Thomas, has been received by the Secretary of the Interior. A synopsis is as follows:

The recommendation of the last annual report is renewed that Utah should not be admitted to the Union until such time as the Mormon people shall manifest by their future acts that they have abandoned polygamy in good faith, and not then until an amendment shall have been made to the constitution of the United States prohibiting the practice of polygamy. The report adds that the convention which adopted the proposed Constitution upon which an appeal was made to Congress for admission to the Union was held without authority from any proper source. It is further asserted that the proposed Constitution is silent with respect to the crime of polygamy, and the Commissioners are of the opinion that the Government can not afford to surrender the great advantage which it now holds, and which has been secured at much expense and trouble. They also think that no harm can result from delay in the admission of the Territory. The report claims that the action of the Senate Committee in this matter in reporting that there must be undoubted evidence on the part of the Mormon people of the abandonment of polygamy before the Territory should be admitted as a State, and also that of the House Committee in reporting favorably the prohibitory amendment to the constitution supports the views of the majority of the commission. It is also stated in the report that the Democratic and Republican parties of Utah, in their conventions, recently held, indorsed the position taken in the majority report. The report further states that since the report of last year the Legislative Assembly of Utah has granted to the minority or un-Mormon element representation in the control of the public institutions, and provided for local representation in Salt Lake and other cities. The recommendation of last year, that the Governor of the territory be given power to appoint county officers as follows: Selectmen, clerks, assessors, recorders and superintendents of public schools, is renewed. The Legislative Assembly, at its session in January last, the report states, denied to the Governor the right to appoint the territorial treasurer, auditor and other officers, and it is added:

"This is presented the spectacle of the chief representative of the Federal Government in Utah being denied the right to exercise his legal authority, while at the same time the agents and leaders of those who are responsible for the election are at the capital of the Nation proclaiming the loyal submission of the Mormon people to the laws and demanding that they be rewarded for it."

"In our opinion," continues the report, "one of the chief causes for the long delay in the settlement of the contest in Utah has been the exercise of political power subordinate to the interests of the church."

In commenting upon the fact that the public schools of Utah are, with the exception of a few districts, in Salt Lake City and in the mining regions under the control of the Mormon church, the commissioners refer to an act passed by the last Legislative Assembly but vetoed by the Governor which provided for the distribution of the public school fund for the support of public and private schools; also the opinion expressed by Prof. Willford Woodruff under date of June 8, 1888, that "the education of our children should be taken in hand by us as a people. * * * The perusal of books we use as divine records is forbidden. Our children if left to the training they receive in these schools, will grow up entirely ignorant of those principles of salvation for which the Latter Day Saints have made so many sacrifices. * * * The desire is universally expressed by all thinking people in the church that we should have schools where the Bible, the Book of Mormon and the Book of Doctrine and Covenants can be used as text books, and where the principles of our religion may form part of the teachings of the schools."

From these circumstances the majority conclude that the Mormon church is committed to a policy which, if successful, will prove destructive to the public school system in Utah. The recommendation is, therefore, renewed that superintendents of public schools be appointed by the Governor. During the past year the different religious denominations had in operation 90 schools, attended by 7,442 pupils. Of this number the Presbyterian church conducted 33 of the schools the Congregational 22, the Methodist 20, the Catholic 7, the Episcopalian 5, the Baptist 1 and the Swedish 1. The report expresses the opinion that the work under the law of Congress with respect to the registering of votes and the conduct of elections has been satisfactorily performed.

During the year there have been eight indictments for polygamy and four convictions; 204 indictments for unlawful cohabitation, and 206 convictions. In conclusion the Commissioners express the opinion that an energetic enforcement of the laws should be continued, as should also the political disabilities.

HOUSE.

WASHINGTON, Sept. 29.—In the House the Stahlnecker Committee presented its report completely exonerating Mr. Stahlnecker and testifying that Judge Kelley was actuated by honorable motives in offering the resolution of investigation.

A conference was ordered on the resolution appropriating $100,000 for yellow fever sufferers.

The House then went on the private calendar.

When the committee rose a number of private bills were passed, including one authorizing the construction of bridges across the Tennessee river in Kentucky by the Tennessee & Cairo Railroad Company.

The House agreed to adjourn over at the conclusion of the day's business until Monday. An effort is being made to arrange for the adjournment of the House after this week from Monday to Thursday, and from Thursday to the following Monday of each week, thus giving two days' session per week. If this is arranged and it is desired to hold the regular night sessions for the consideration of pension bills, they will be held on Thursdays instead of Fridays.

At 5 o'clock the House took a recess until 8 o'clock, the evening session to be for the consideration of private pension bills.

At the evening session the House passed thirty one private pension bills and at 10:30 adjourned until Monday.

POST-OFFICE CHANGES.

WASHINGTON, Sept. 29. — Among the fourth-class post-offices to be raised to third-class or Presidential offices on October 1 are the following:

Huntingburg, Ind.; Spencer, Ind.; Correctionville, Ia.; Bangor, Mich.; Warren, Minn.; Winnebago City, Minn.; Caldwell, O.; Carey, O.; Harbor, O.; Middlebury, O.; Rhinelander, Wis.; Rice Lake, Wis.; West Superior, Wis.; Ponca, Neb., and Minot, D. T.

RAPID TRANSIT FOR MAILS.

WASHINGTON, Sept. 29.—Postmaster-General Dickinson has just completed arrangements by which a new fast mail train will be established between Chicago and New York City, commencing Sunday the 30th inst. This train will be known as the New York and Chicago fast mail, east. It will leave Chicago at 8:30 a. m. and arrive at Boston about 3 p. m. instead of 9 p. m. as by present schedule, and in New York at 12:30 p. m. instead of 7 p. m., as by present schedule. Mails by this train will be twenty-seven hours in transit from Chicago to New York. This is one of the most important improvements that has yet been made in the east-bound mail facilities in the history of the railway mail service.

THE FEDERAL SUPREME COURT.

WASHINGTON, Sept. 29.—The Supreme Court of the United States will reassemble Monday, October 8. Immediately upon the opening of court Chief Justice Fuller will take the oath of office, and after the transaction of routine business the court will adjourn to call on the President. The next day the call of the docket will begin. There are already 1,187 cases on the docket, and it is expected that this number will be increased to about 1,200 by the time the court meets. The first case to be called is the Government Bell telephone case, but the hearing may be postponed on account of Justice Matthews's illness. Other cases which have been specially assigned for hearing early in the term are the Alabama color-blindness case, involving the constitutionality of the law requiring railroad men to be free from color-blindness, and one of the familiar drummers' tax cases. Of the fourteen cases taken under advisement when the court adjourned in May last is the suit of Myra Gaines against the city of New Orleans.

FOR FAIR ELECTIONS.

Indiana Sets an Example Worthy of Emulation by Every State in the Union—A League to Secure Fairness at the Polls.

INDIANAPOLIS, Ind., Sept. 29.—There has been organized in this State, irrespective of any political organization whatever, and embracing gentlemen of both great political parties, the Indiana Fair Election League. The purpose is to prevent election frauds and to see that the election laws are enforced. The organization is governed by a central committee, and subordinate to it are the county and precinct committees. It is proposed to watch every poll in the State from the time it is opened until the last vote is counted.

Coopers Well Organized.

CHICAGO, Sept. 29.—The convention of coopers which has been in session since Wednesday adjourned last night after forming a National organization as a district of the Knights of Labor. A. J. McDaniels, of Cincinnati, was elected District Master Workman; Leopold Reis, of Milwaukee, District Worthy Foreman, and R. M. Burke, of Chicago, District Recording Secretary. The convention represents 30,000 coopers who are Knights of Labor, but who have heretofore had no central organization. Steps will be taken at once towards shortening the hours of labor and securing uniformity of wages throughout the country.

War on the Salvationists.

NEUCHATEL, Switzerland, Sept. 29.—During concerted meetings of the Salvation Army at their various rendezvous last night sections of an apparently well organized mob attacked the meeting houses, poured in petroleum and set fire to it. The flames were put out and the partisans of the Salvation Army gave battle to the attacking party. A riot of considerable proportions ensued, during which many persons were injured, though none of them seriously.

Afraid of Frauds.

ST. LOUIS, Sept. 29.—The unusually large number of persons naturalized in the courts during the past two weeks has aroused suspicion that election frauds are contemplated, and Recorder Williams is to make an investigation. For the week ending last night 2,500 persons have been naturalized, and over 4,000 have become citizens during the past fortnight. Such a record is unprecedented, and interesting developments are looked for.

Spared the Women's Lives.

COLUMBIA, S. C., Sept. 29.—The Governor has respited until October 26 Ephraim Mayes, a man who was to have been hanged at Edgefield yesterday for the murder of Jake Burt, an aged deaf mute, and has pardoned Chaney Burt, the murdered man's daughter, and commuted to life imprisonment the sentence of Louisa Burt, wife of the victim. They had been sentenced to death for complicity in the murder.

More Trouble at Zanzibar.

ZANZIBAR, Sept. 29.—A steamer from Kelfa brings news that two Germans, eleven of their servants and twenty-one native insurgents have been killed at that place. The insurgents had renounced allegiance to the Sultan on the ground that he had no right or power to transfer their country to the German company. The German company has been driven from all points except Baganoyo, which place is protected by German men-of-war.

An Old Law to Be Enforced.

PARIS, Sept. 29.—The prefect of Paris has issued an order forbidding newsboys to cry any thing in the streets excepting the titles of papers. The law was first passed by the Government of the Republic in 1793. Under the reign of Napoleon I. the law fell into desuetude, and with the exception of a brief revival in 1816 has remained a dead letter ever since.

Germans Greet Their Sovereign.

BERLIN, Sept. 29.—Emperor William's progress through Southern Germany has been cordial in the extreme. The display at Stuttgart was the finest the city has ever witnessed. Immense crowds of people congregated at the railroad station, hundreds of lamps were lighted, bells were rung and the utmost enthusiasm prevailed.

Sixteen Lives Lost.

ST. PETERSBURG, Sept. 29.—Sixteen persons perished in the fire at Cronstadt, Thursday. The building destroyed was a lofty wooden tenement. The staircase was burned away and a number of the inmates leaped from the windows to the stony street to escape the flames and were mortally injured.

Snow in Pennsylvania.

BRADFORD, Pa., Sept. 29.—The first snowstorm of the season visited this valley last night. At Lafayette Corners, the highest point in McKean County, a howling snow-storm was in progress at 10 o'clock. Snow also fell at Colegrove and other points. No snow fell here, but the weather is freezing cold.

Fatal Flames.

CHICAGO, Sept. 29.—The furniture house of F. G. Wilkins & Co., 15 and 17 Lake street, this city, was destroyed by fire; total loss about $90,000. One man perished in the flames, and a boy is missing. There were several narrow escapes.

Freezing Weather.

WASHINGTON, Sept. 29.—Freezing weather is reported in Northern Minnesota, killing frosts from the southern portions of Michigan and Wisconsin and light frosts in the Northwest as far south as Southern Missouri.

Killed by a Falling Roof.

SCRANTON, Pa., Sept. 29.—The fall of the roof in the Grassy Island shaft of the Delaware & Hudson Company's mines killed Martin Mahady, aged 60, and Christopher Gabriel, aged 43.

The Will Stands.

NEW YORK, Sept. 29.—The contest over the will of the late James Stokes, involving $9,000,000, has been decided against the contestant, Henry Dale, whose late wife was a daughter of Mr. Stokes.

Cuba's Heavy Losses from the Cyclone.

HAVANA, Sept. 29.—Saqua and Cardenas newspapers say that there is no exaggeration in estimating the losses caused by the recent cyclone at over $6,000,000 in these districts alone.

Hanlan Defeated.

SYDNEY, N. S. W., Sept. 29.—The race for the sculling championship between Peter Kemp and Edward Hanlan was rowed on the Paramatta river and was won by Kemp.

A Mill Destroyed.

ASHTABULA, O., Sept. 29.—The Ashtabula Milling Company's flouring mill burned with a large stock of flour and grain. Loss, $15,000. Partially insured.

I have been bothered with catarrh for about twenty years; I had lost sense of smell entirely for the last fifteen years, and I had almost lost my hearing. My eyes were getting so dim I had to get some one to thread my needle. Now I have my hearing as well as I ever had, and I can see to thread as fine a needle as ever I did, my sense of smell is partly restored, and it seems to be improving all the time. I think there is nothing like Ely's Cream Balm for catarrh. Mrs. E. E. Grimes, 67 Valley St., Perry Co., Ohio.

THE FEVER'S RETREAT.

A Marked Decrease in the Number of Cases at Jacksonville.

THE PEOPLE NOW MORE HOPEFUL.

Death of the Heroic Dr. Eddy—Destitution at Jackson, Miss.—Decatur, Ala., Well Supplied with Funds and Medicine—Quarantine Raised.

FRIDAY'S REPORT.

JACKSONVILLE, Fla., Sept. 29.—A marked reduction in the number of new cases and deaths yesterday seems to justify the hope that the worst of the epidemic is over. Eighty-five cases were reported today, of which 26 were white; deaths, 5. Total cases to date, 2,453; deaths, 242. Dr. L. T. Eddy, of Louisville, who was one of the first of the heroic physicians who responded to the call for medical aid, sunk down at his post yesterday.

Three new cases are reported at McClenny—two white and one colored—and one death. No new cases or suspects at Gainesville.

It is believed now that there is no yellow fever in Florida, except at Jacksonville, Fernandina, McClenny, Sanderson, Gainesville, Tampa and Manatee, except, perhaps, sporadic cases near the places named.

A splendid orange crop is ripening, and there can be no danger in sending it to market in fumigated cars.

The citizens of Fernandina, through the executive committee of the Howard Association, call attention to their need for substantial and immediate aid and appeal to the public.

NEW ORLEANS, Sept. 29.—The *Times-Democrat's* Jacksonville special says: The cordon around the city is complete and sufficiently strong to prevent bands of negroes from forcing themselves in. No one will be allowed to enter the city without a pass from the authorities. Some think that the worst of the scourge is over, and that an early whiter will finish it.

Several persons at Sanderson are down with yellow fever contracted at McClenny. As there are but twenty-five people remaining in Sanderson no alarm is manifested.

DECATUR, Ala., Sept. 29.—Three new cases of yellow fever were reported. All the patients under treatment are doing well, with two exceptions. J. R. Stuart is reported to have died of the fever at Hanceville.

Dr. Jerome Cochrane, State health officer, has sent out an announcement that the town is supplied with every thing needed and needs no other help.

JACKSON, Miss., Sept. 29.—The high tension of feeling in the community having subsided the city has assumed a tranquil state. Each day increases the number of demands for food. Much destitution is reported. Rations will be forwarded by orders from Washington. The sick are all reported doing well. There are no new cases, and no deaths have occurred during the last twenty-four hours.

LOUISVILLE, Ky., Sept. 29.—Ben B. Grant, of Newark, the yellow fever patient here, died with the black vomit. The weather is frosty.

CAIRO, Ill., Sept. 29.—The Boards of Health here and at various points through the South have so far modified the quarantine regulations that railway traffic will be resumed to-day. The Illinois Central began receiving freight for nearly all Southern points, the Mobile & Ohio for all points except Meridian, where trains are not allowed to stop, and the Green line to all points South unconditionally, except Florida, where receipts are given subject to quarantine regulations.

CINCINNATI, Sept. 29.—The Cincinnati, New Orleans & Texas Pacific railroad has announced that through service to New Orleans has been resumed on its road, the quarantine at Meridian, Miss., having been raised.

CHATTANOOGA, Tenn., Sept. 29.—There was a light frost yesterday morning. The modification of quarantine regulations at points here, in Georgia, Alabama and Mississippi has put the railroads centering here into great activity.

CHICAGO, Sept. 29.—The yellow-fever scourge in the South has disastrously affected the business end of the amusement world. Dates in Southern cities, most of them arranged in New York, have been canceled, and the time thus lost is now being covered elsewhere with extraordinary difficulty. Some of the companies are having great trouble in getting from point to point on time, and many are not able to come North or Northwest.

THE NATIONAL GAME.

Result of Friday's Contests Between the Professional Base-Ball Clubs.

National League games on Friday resulted as follows: At Boston—Chicago, 13; Boston, 7. At Washington—Indianapolis, 4; Washington, 2. At New York—New York, 3; Detroit, 2 (game called at close of tenth inning). At Philadelphia—Pittsburgh, 4; Philadelphia, 2.

American Association: At Cincinnati—Baltimore, 12; Cincinnati, 0. At Louisville—Louisville, 4; Cleveland, 1. At St. Louis—St. Louis, 7; Brooklyn, 0. At Kansas City—Athletic, 6; Kansas City, 3.

Western Association: At Davenport—Omaha, 1; Davenport, 0. At Sioux City, first game—Sioux City, 4; St. Paul, 2; second game—St. Paul, 7; Sioux City, 1.

No Shortage in the Orange Crop.

NEW YORK, Sept. 29.—The price of oranges and the supply are not likely to be seriously affected by the fever in Florida. Wholesale dealers at Washington Market said this morning that the State of Louisiana alone will produce this year at least 1,500 boxes of oranges. The supply from the West Indies is almost unlimited. The Mediterranean ports can also be drawn upon. The whole crop might fail in this country and yet the market here would not be seriously embarrassed. The total number of boxes of oranges handled annually is estimated at between 12,000,000 and 15,000,000.

A Favorable Showing.

NEW YORK, Sept. 29.—Calculations made by *Bradstreet's* as to the extent of commercial embarrassments for the first nine months of 1888 as compared with the same period of each year since 1882 show that the number of failures in 1888 has been lower than for any of the other years except 1883 and 1887, while the proportion of assets to liabilities is larger than in any year except 1884, thus making a very favorable showing for the current year.

An Empty Balloon Found.

PROVIDENCE, R. I., Sept. 29.—A large silk balloon was found on Cumberland hill yesterday. The address, "Carl Myers, Mohawk, N. Y., was on it and there was a bit of Buffalo newspaper pinned to the basket on which was penciled: "Met our death in the clouds."

Falling Off in the Seal Catch.

VICTORIA, B. C., Sept. 29.—The catch of the sealing fleet this season is 19,038 skins, a falling off from last year of 14,762 skins, due to rough weather and the feeling regarding the Behring sea. The value of the catch this year is less than last by nearly $75,000.

A WARNING.

The modes of death's approach are various, and statistics show conclusively that more persons die from diseases of the Throat and Lungs than any other. It is probable that everyone, without exception, receives vast numbers of Tubercle Germs into the system and where these germs fall upon suitable soil they start into life and develop, at first slowly and is shown by a slight tickling sensation in the throat and if allowed to continue their ravages they extend to the lungs producing Consumption and to the head, causing Catarrh. Now all this is dangerous, and if allowed to proceed will in time cause death. At the onset you must act with promptness; allowing a cold to go without attention is dangerous and may lose your own life. As soon as you feel that something is wrong with your Throat, Lungs or Nostrils, obtain a bottle of Boschee's German Syrup. It will give you immediate relief.

"A Great Newspaper."

Under the above caption the *New York Graphic*, some three years ago, published a critical review of the growth of THE CHICAGO DAILY NEWS, which sets forth so clearly some of the fundamental principles underlying the development of one of the phenomenal successes of later years that it will well repay a reading. To bring some of the *Graphic's* figures down to the present date, supplemental statements are parenthetically added by the present writer.

"THE newspaper entitled to the distinction of having the largest daily circulation in America is THE CHICAGO DAILY NEWS. (Since this statement was made it is possible that the growth of the *New York World* entitles it to first place.) *The Graphic* to-day devotes a page to sketches of scenes in and about its establishment. The history of this paper is probably without a parallel in the annals of American journalism. It was founded December 20th, 1875, and was the first low-priced daily successfully established in the West. At the end of its first year it had achieved a circulation of about 10,000. From that time on its growth has been remarkable. It now prints seven editions daily, comprising both morning and evening issues. Its statement of circulation for the year 1884 shows a daily average of 125,178 copies, unquestionably the largest daily circulation on the American continent. (The sworn statement for 1887 shows a daily average of 165,376.)

"In politics THE DAILY NEWS is always independent, never neutral. While its editoral expression is sometimes vigorous to the degree of severity, there is always in its utterances of opinion so manifest a purpose to be impartial and fair to all opposing interests, that it rarely loses the confidence of the reader, however much it may fail to bring him to an acceptance of its own view concerning the matter in hand.

"As a newspaper proper, THE DAILY NEWS has earned a reputation for enterprising newsgathering second to none in the United States. It is the only cheap paper in the West that is a member of the Associated Press. It gives its readers all the news worth giving and gives it for two cents. (Now it does it for *one cent a day.*)

"Aside from its own deserving merits as a complete and cheap newspaper, it is doubtless much indebted for its remarkable growth in circulation to the persistent adherence on the part of the other Chicago dailies to the "blanket-sheet" style of journalism. Of all the people in America the average Chicagoan is most in a hurry and least inclined to wade through columns of verbiage and stuff. THE DAILY NEWS is the only Chicago daily that has the facilities for giving all the news, and at the same time the good sense to present it in concise form. The result of such a condition of affairs is that THE DAILY NEWS prints more papers than all the other Chicago dailies combined.

"In considering all the causes which have entered into and produced so phenomenal a journalistic growth the most important one unquestionably has been the controlling conviction of its managers that the "cheap paper" should be cheap only in price; that its news should be as fresh and complete, its editorial discussion as able, and its general tone and character as pure and healthful as its best and highest priced cotemporary. All this the "cheap paper" may easily be even at its reduced price.

"The difference of revenue between the two-cent paper (even more so when the price is one cent), and the higher-priced "blanket-sheet," the latter throws away in useless and unasked for size, that not only is of no worth to the reader, but is even an annoyance, in that it compels him to gleam what is of real news interest from a mass of verbiage and worthless amplication.

"It is because its managers have been wise enough to practically recognize these essential elements of the best American journalism of today that THE DAILY NEWS is the best and most popular general family newspaper published in Chicago or the West."

It seems hardly possible that an endorsement of merit could be framed in stronger terms than the foregoing analysis, and yet how much greater is not the achievement now that such a journal as THE DAILY NEWS is placed in every man's hands at the reduced price of ONE CENT A DAY.

The truly marvelous enterprise of American journalism can hardly go further. Certain it is that THE DAILY NEWS *leads the van.*

THE CHICAGO DAILY NEWS is sold by all newsdealers at One Cent per copy, or it will be mailed, postage paid, for $3.00 per year, or 25 cents per month. The attention of farmers is especially called to the fact that this metropolitan daily now costs but little more than the old time weekly. The shrewd farmer will now have his daily market reports. DON'T SCOLD

a man for groaning when he has Rheumatism or Neuralgia. The pain is simply awful. No torture in the ancient times was more painful than these twin diseases. But—oughtn't a man to be blamed if, having Rheumatism or Neuralgia, he wont use Ath-lo-pho-ros, when it has cured thousands who have suffered in the same way? It has cured hundreds after physicians have pronounced them incurable.

"The skill of five physicians could not cure me of Rheumatism which had settled in the hips, neck and shoulders. So intense was the pain that sleep was almost impossible. The first dose of Athlophoros gave me relief, and the third enabled me to sleep for four and a half hours without waking. I continued its use, and am now well."

PERD'S MILL, TEXAS, June 20, 1888—The Swift Specific Company, Atlanta, Ga.—Gentlemen: One of my children was troubled with rheumatism and boils for about two years. We gave her various kinds of medicine, but without profit, and began to despair of curing her at all. I was persuaded to try your Swift's Specific. After she had used several bottles the diseases all disappeared, and she is now a hale, hearty and healthy girl twelve years old. Another child has just become afflicted in the same way, and I am using the S. S. S. and anticipate a prompt and permanent cure. N. C. WAGGONER.

RICH HILL, MO., July 7, 1888—The Swift Specific Co., Atlanta, Ga.—Gentlemen: Our little girl when but three weeks old broke out with eczema. We tried the prescriptions from several good doctors, but without any special benefit. We tried S. S. S., and by the time one bottle was gone her head began to heal, and by the time she had taken six bottles she was completely cured. Now she has a full and heavy head of hair—a robust, hearty child. I feel it but my duty to make this statement. Respectfully, H. T. SHOBE.

CHATTANOOGA, TENN., June 27, 1887—The Swift Specific Co., Atlanta, Ga.—Gentlemen: In 1886 I contracted blood poison, and at once sought a physician, who treated me for several months. By his advice I went to Crab Orchard Springs, Ky., where his course of treatment was carefully observed. I recovered, as I thought, but the next spring pimples began to appear on my face and body. These gradually increased to sores and running ulcers. I was advised to try S. S. S., and immediately after taking it I commenced to improve, slowly at first, but more rapidly afterwards, and soon nothing remained to tell of my trouble. My blood is now thoroughly cleansed, and my system free from taint, and I owe my present condition—a perfect cure—to your medicine. I cheerfully give this statement that others who have suffered as I have may reap the same benefit. HARDY M. BURT, 24 West Ninth St.

HOMER, LA., May 25, 1888—The Swift Specific Co., Atlanta, Ga.—Gentlemen: About two years ago my general health gave way entirely. I was so debilitated that I almost despaired of ever feeling well again. All that the physicians done for me brought no permanent relief. Friends insisted that I should give S. S. S. a fair trial, although I thought it would be throwing away money. After taking a thorough course, my health and strength returned, and I must say that S. S. S. alone cured me, as I discarded all others while using it. As a tonic I can most heartily recommend it; for general debility, it certainly is a specific. W. F. BRIDGES, J.P.

HOMER, LA.—I know Mr. W. F. Bridges, and will say that his statement is correct.

FREDERICK'S DIARY.

One of the Late Emperor's Confidante's Said to Have Made Public Its Contents —Bismarck Criticized.

LONDON, Sept. 29.—The *News* says that the publisher of the *Deutsche Rundschau* has given to the public prosecutor in Berlin the name of the person who contributed the extracts from Frederick's diary. The *Times'* Berlin correspondent thinks the name of the person is Dr. Geffcken, of Hamburg, the confidante of Frederick and a frequent contributor to English magazines on German politics.

The *Standard's* Berlin correspondent says that if the person named by the *Deutsche Rundschau* proves to be the contributor, an action will be directed against him—probably for treason—in the Imperial Court at Leipsic. The publisher of the *Rundschau* had 30,000 copies ready for sale.

The whole Vienna press censures Prince Bismarck for his action in connection with the publication of the extracts. The papers say that his purpose is to root from the hearts of Germans the memory of a liberal Emperor.

A Woman's Discovery.

"Another wonderful discovery has been made and that too by a lady in this county. Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly and could not sleep. She bought of us a bottle of Dr. King's New Discovery for Consumption and was so much relied on taking first dose that she slept all night and with one bottle has been miraculously cured. Her name is Mrs. Luther Lutz." Thus writes W. C. Hamrick & Co., of Shelby, N. C. Get a free trial bottle at F. Sherer & Co's. Drug store.

A SENSATION.

The people are getting crazy over the Moxie Nerve Food. All the nervous, weakly women are talking about it because it takes that terrible tired feeling away so quick and keeps it off on 3 cents worth of the syrup per day. It is an artificially digested nerve food only. The men are as bad, for it breaks up the effects of dissipation and overwork in a few hours and no stimulation or reaction. It is a newly discovered process of preparing the food used by the nerves, artificially, for the purpose of giving people their full complement of nerve power, when the stomach is not able to digest it for that purpose. Overworked people take enormous quantities of it. It contains neither medicine nor alcohol.

REVIEW—TEMPERANCE.

International Sunday-School Lesson for September 30, 1888.

Recapitulation of the Events of Forty Years' Wanderings in the Wilderness—Application of Leading Points as Symbols —Dangers of Intoxicating Drink.

[Specially arranged from S. S. Quarterly.]

GOLDEN TEXT—And thou shalt remember all the way which the Lord thy God led thee these forty years in the wilderness, to humble thee, and to prove thee, to know what was in thine heart, whether thou wouldst keep His commandments, or no.—Deut. 8: 2.

TIME—From May, B. C. 1491, to March, B. C. 1451, nearly forty years.

PLACE—Arabia, the peninsula of Sinai, the wilderness, Kadesh-Barnea; thence southerly, to the eastern arm of the Red Sea, thence northerly, east of the Dead Sea, to the Jordan.

PERSONS—Moses, Aaron, Miriam, Joshua, Caleb.

EVENTS—The leading events are the forty years' wanderings in the wilderness; the covenant with God; the golden calf; Moses' forty days upon Mount Sinai; the ceremonial law; the tabernacle; the institutions of religion; the destruction of Nadab and Abihu; the sending of the spies; water from the rock of Meribah; the sin of Moses; the fiery serpents; the prophecy of Balaam; the conquest of Canaan east of the Jordan; the death of Aaron on Mount Hor, and of Moses on Mount Nebo.

THE BIBLE—When Moses died the people had for their Bible the Pentateuch, the first five books of our Bible.

COMMENTS—The Israelites (Lesson I.) consecrate themselves to God, and promise to be his obedient people. Then Moses goes up into the mountain to receive further instructions. While there (Lesson II.) the people fall into idolatry, for which they are punished and brought to repentance.

Then God promises to be their guide and guard (Lesson III.). Then follow the plans for binding the people to the true God, and instructing them in the divine truths of religion, and training them to the religious life.

Starting once more on their journey, they come to the southern borders of their promised land, guided by the pillar of cloud and of fire (Lesson IX.). Here they are afraid, and, filled with unbelief, they rebel (Lessons X.-XII.), and are compelled to remain forty years in the wilderness, till all the men over twenty years old die. Then they make a new start for the land of their hopes; and we leave them on the very border of their land, with only the Jordan between. Here Moses dies.

All this is history; but it is also an enacted parable of the Pilgrim's Progress from the Egypt of sin to the promised land of their hopes. Every lesson is an illustration to us of some danger, or duty, or need. All through the quarter we should keep in mind the spiritual meaning for ourselves.—*Rev. A. F. Schauffler.*

SUBJECT.—The Ancient Pilgrim's Progress from the bondage of Egypt to the promised land—from the state of worldliness to Heaven. 1. The exodus symbolizes conversion. 2. Moses was a type of Christ. 3. The pillar of cloud and fire, the guidance of the Holy Spirit and the Word of God (Lessons III. IX.). 4. The manna, the daily spiritual food. 5. Assenting to the Book of the covenant, consecration to God and a public profession of religion (Lesson I.). 6. Generous giving for the tabernacle, a revival of religion and of gifts to missions, to the building of churches and God's work on earth (Lesson IV.). 7. The tabernacle, the church and its religious worship (Lesson V.). 8. The sacrifices and feasts, the institutions of religion, and great religious meetings (Lessons VI., VII., VIII.). 9. Falling into idolatry (Lesson II.), the unbelief of the people (Lesson XI.), the sin of Moses (Lesson XII.), the failings and imperfections of God's people. 10. Water from the rock, the living waters from Christ and His Word (Lesson XII.). 11. The forty years in the wilderness, the long and varied experiences of the Christian—joys and sorrows, trials, difficulties, victories, helps—disciplining him for his Heavenly Home. 12. Reports from promised land (Lesson X.), and visions of its blessedness (Lesson XIII.), the higher experiences of the Christian, and the promises and descriptions of Heaven. 13. The end of the journey of life (Lesson XIII.).

THE DOWNWARD COURSE.—Deut. 21:18-21.

GOLDEN TEXT—Enter not into the path of the wicked, and go not in the way of evil men.—Prov. 4:14.

CENTRAL TRUTH—Woe befall those who yield to the attractions of the cup.

CIRCUMSTANCES—These words occur in an address which Moses spoke to the Israelites just before he died.

HELPS OVER HARD PLACES—18. *If a man have a stubborn and rebellious son:* such a son who is disobedient to his parents will be also disobedient to the laws of the state. Most crimes have their source in disobedience to parents. *When they have chastened him:* by kind and loving words, by punishment; every effort fails. 19. *Bring him unto the elders:* the rulers, the judges. *Gate of his place:* or town. The gate was the natural place of concourse, and there trials and public meetings were held. 20. *Glutton:* one who is given to appetite for food; one who over-eats for the pleasure of it, to the injury of his body. *Drunkard:* yielding to the power of strong drink. The body rules the soul. 21. *Stone him:* the usual mode of capital punishment among the Jews. *So shalt thou put evil away:* he was evil, and of no use, but was like a person with an infectious disease, inoculating others with it. The only way was to get rid of him some way; and if he refused to be cured, he must be destroyed. *Shall hear and fear:* his punishment would be a warning to deter others from committing the same sins.

ILLUSTRATION—Homer, in his great poem, "The Odyssey," describes the journeyings and adventures of the wisest of the Greeks at the siege of Troy named Ulysses (Odysseus), king of Ithaca, in Greece. After the destruction of Troy, Ulysses, starting for home, wanders about the world, meeting with many wonderful adventures. Among them is the one which will illustrate to us to-day a lesson of Bible temperance; After escaping from hurricanes, and giants, and sirens, Ulysses and his companions found themselves anchored in the quiet harbor of a beautiful island as charming as the happy valley or the gardens of the golden age. In the center of this valley was a magnificent palace of snow-white marble in a grove of trees. A number of Ulysses' followers went up to this palace. While they were waiting, a most beautiful lady, named Circe, an enchantress, came into the room and welcomed them with words sweeter than honey. She invited them into the banquetting-room, placed each one on a throne of gold blazing with jewels, and ordered the feast to be brought in. They ate of her dainty meats, and drank freely of her spiced wines. They were sensual men, and gormandized like swine. Suddenly the enchantress waved her wand over them, and they were transformed into hogs, and driven from their thrones, out into the back yard, and placed among the other swine, and fed on swine's food.

Dyspepsia, Despair, Death.

These are the actual steps which follow indigestion. Acker's English Dyspepsia Tablets will both check and cure this most fearful of diseases. Guaranteed by Prentice & Evenson's, druggist.

Eat With Comfort and be Happy.

It is by no means uncertain, but, on the contrary, a well ascertained fact, that upon the well being of man's stomach depends that modicum of happiness which is vouchsafed to him in this world. Dyspepsia, the foe of all others to the stomach's tranquility, and most to be dreaded, is a complaint to the preliminary relief and eventual cure of which Hostetter' Stomach Bitters is specially adapted. It enables those who use it with a reasonable degree of persistence to eat with relish, because it imparts a healthful appetite; to digest with ease, because it strengthens the stomach; and to assimilate the food that is eaten and digested, thus benefiting health, promoting flesh and sustaining the exercise of the physical and mental faculties. It, moreover, facilitates the secretion of healthy bile, actuates without discomfort the habit of body, and tends, when taken upon retiring, to produce healthy slumber. Malaria is conquered by it.

Sore From Knee to Ankle.

Skin entirely gone. Flesh a mass of Diseases Leg diminished one third in size. Condition hopeless. Cured by the Cuticura Remedies

For three years I was almost crippled with an awful sore leg from my knee down to my ankle; the skin was entirely gone, and the flesh was one mass of disease. Some physicians pronounced it incurable. It had diminished about one third the size of the other, and I was in a hopeless condition. After trying all kinds of remedies and spending hundreds of dollars, from which I got no relief whatever, I was persuaded to try your Cuticura Remedies, and the result was as follows: After three days I noticed a decided change for the better, and at the end of two months I was completely cured. My flesh was purified, and the bone (which had been exposed for over a year) got sound. The flesh began to grow, and to-day, and for nearly two years past, my leg is as well as ever it was, sound in every respect, and not a sign of the disease to be seen.

TERRIBLE SUFFERING FROM SKIN DISEASES.

I have been a terrible sufferer for years from diseases of the skin and blood, and have been obliged to shun public places by reason of my disfiguring humors. Have had the best of physicians and spent hundreds of dollars, but got no relief until I used the Cuticura Remedies, which have cured me, and left my skin as clear and my blood as pure as a child's.

Constitutional Catarrh.

No single disease has entailed more suffering or hastened the breaking up of the constitution than catarrh. The sense of smell, of taste, of sight, of hearing, the human voice, the mind,—one or more, and sometimes all, yield to its destructive influence. The poison it distributes throughout the system attacks every vital force, and breaks up the most robust of constitutions. Ignored, because but little understood, by most physicians, impotently assailed by quacks and charlatans, those suffering from it have little hope to be relieved of it this side of the grave. It is time, then, that the popular treatment of this terrible disease by remedies within the reach of all passed into the hands competent and trustworthy. The new and hitherto untried method adopted by Dr. Sanford in the preparation of his Radical Cure has won the hearty approval of thousands. It is instantaneous in affording relief in all head colds, sneezing, snuffling and obstructed breathing, and rapidly removes the most oppressive symptoms, clearing the head, sweetening the breath, restoring the senses of smell, taste and hearing, and neutralizing the constitutional tendency of the disease towards the lungs, liver and kidneys.

Sandford's Radical Cure consists of one bottle of the Radical Cure, one box of Catarrhal Solvent, and Improved Inhaler; price $1.

DRUNKENNESS

Or the Liquor Habit, Positively Cured By Administering Dr. Haines' Golden Specific.

It can be given in a cup of coffee or tea without the knowledge of the person taking it; is absolutely harmless, and will effect a speedy and permanent cure, whether the patient is a moderate drinker or an alcoholic wreck. Thousands of drunkards have been made temperate men who have taken Golden Specific in their coffee without their knowledge and to-day believe they quit drinking of their own free will. IT NEVER FAILS. The system once impregnated with the Specific, it becomes an utter impossibility for the liquor appetite to exist. For sale by FRANK SHERER, Druggist, 43 W. —The ice dealers will now take a rest.

—The latest things in market are the Harrison canes. Each is tipped with a minature cider barrel, bearing the dates "1840-1888." The canes retail for fifteen cents apiece or two for twenty-five, and can be had of W. H. Ashcraft.

—Articles of incorporation were issued to-day to the Footville Hall Co. (limited). The company consists of Solomon Strang, H. D. Becker, M. Mulcahey, C. D. Groves and G. D. Silverthorn. Twelve hundred dollars of capital have been raised, the object being to provide for Footville a town hall.

—Col. and Mrs. Z. P. Burdick, whose home is just north of this city, reached their golden wedding anniversary to-day. For fifty years they had traveled life's road side by side, and forty of those years had been spent among the people of Rock county. This afternoon a number of their friends gathered at the family homestead, treating Col. and Mrs. Burdick to a very pleasant surprise. The afternoon was spent most enjoyably.

—A large number of our local singers assembled in the Sunday school room of the Congregational church last evening for rehearsal of the work intended for the State Musical Convention. President Geo. K. Colling presided, and under his direction a rehearsal of the "Creation" and "Hymn of Praise" was had. Everything in connection with the coming convention is progressing very favorably and the local singers predict a grand success. It only remains for the people of Janesville to attend the concerts and make the gathering a financial success, which they undoubtedly will do.

—There was an enthusiastic meeting of republicans at the Invincibles' Armory last evening. Mr. Chas. Blay presided, and brief and pointed speeches were made by Col. Nicholas Smith, B. F. Dunwiddie, Esq., Senator A. P. Lovejoy, M. H. Soverhill, J. W. Bates, Esq., and H. G. Arnold. A committee was appointed, consisting of Chas. Blay, T. W Goldin and H. G. Arnold, to arrange a programme for the next meeting—Tuesday evening of next week. This committee will arrange a programme consisting of short speeches, interspersed with vocal music. Everybody is invited to attend.

OBITUARY.

MRS. SAMARTHA READ.

Mrs. Samartha Read died in this city Friday afternoon, aged seventy years. Deceased had long been a patient sufferer from cancer in the breast, and for years she bore up with the most remarkable christian fortitude and resignation, placing all her hope and trust in her Lord and Master—Jesus Christ. She died as she had lived, a true and noble christian woman. Brief funeral services were held at Kimball & Hall's undertaking rooms at three o'clock this afternoon, conducted by the Rev. James Slidell, rector of Trinity church.

The remains were embalmed by Messrs. Kimball & Hall, undertakers, and on Monday they will be forwarded to Manassas, Virginia, the former home of the deceased, accompanied by her brother, Hon. Josiah Arnold, of this city.

How Doctors Conquer Death.

Doctor Walter K. Hammond says: "After a long experience I have come to the conclusion that two-thirds of all deaths from coughs, pneumonia and consumption, might be avoided if Acker's English Cough Remedy were only carefully used in time." This wonderful remedy is sold under a positive guarantee by Prentice & Evenson, druggist.

PLAYS THAT ARE PROMISED.

Good Things in Store for Janesville Show-Goers During October.

Sol. Smith Russell; W. J. Scanlan; McNish, Ramza & Arno, and Others.

Next Monday Janesville people were to have been regaled with George A. Wood's presentation of "Dr. Jekyll and Mr. Hyde." This pleasure will be denied them, however, until later in the season as a change of route by Mr. Wood renders the filling of the Janesville date impossible.

Janesville's next attraction will be "His Royal Highness," that has been so well received during the past week at the Haymarket in Chicago. The date announced is next Wednesday.

On Monday, October 8th, McNish, Ramza & Arno's minstrels will appear. The company comes direct from Chicago. In speaking of the performance the Chicago Times says: "The first part went very smoothly, and introduced some good songs well rendered. The olio portion of the bill is strong and interesting. McNish in his "Silence and Fun" and Ramza and Arno in their comic specialties were received with much appreciation, but the hit of the evening was the base-ball statue clog representing the national game, It is a very cleverly arranged dance and makes a great hit. A number of other taking specialties make up the programme, which concludes with a farce. Mr. McNish punishes his opponent very smartly in the prize-fight finale of the first part. Mr. McNish seems to be a very lively gentleman with the gloves, and should put some body before him who could do a little slugging himself."

W. J Scanlan, who is booked for Tuesday, October 9th, will appear in his Irish play, "Shane-na-Lawn," for which several new songs have been written—among them, "Why Paddy is Always Poor" and "Gathering the Myrtle with Mary."

Sol. Smith Russell will greet his Janesville friends on the Saturday following Scanlan's appearance. He will present "Bewitched" but the play has been entirely rewritten since last season, Edward E. Kidder, the author, traveled with the company for two weeks during the early part of the season, getting points for changes and improvements. Mr Russell's appearance in the part of "that good young man, Halcyon Todd," is said to be more mirth-provoking than ever.

Bartley Campbell's "Fate" will be the next attraction after "Bewitched," and is billed for the seventeenth. George H. Adams in "He, She, Him and Her" is to be in the city October 30th. To close the month an operatic attraction is being sought for Wednesday, the 31st.

THE NEW SHOE FACTORY.

The Marzluff Factory will soon be in Opperation in Janesville.

Messrs C. B. Conrad, J. P. Baker and Ed. F. Carpenter, the committee appointed by the Business Men's Association, have succeeded in raising the required amount to establish the Marzluff shoe factory in Janesville, and it may now be safely said that it will soon be one of the manufacturing establishments of the Bower City.

Mr. Marzluff intends visiting the east next week for the purchase of the necessary machinery for his factory, which will be shipped here as soon as possible. He has not yet secured a location, but it is presumed he will lease the new Jeffris & Fethers' block on the raceway.

Mr. Marzluff is one of our wide-awake young business men, and he will no doubt make a success in this new manufacturing establishment. He has the best wishes of the people of Janesville in the new venture.

CUPID'S CAREFUL AIM.

BUCK-CONNELL.

A quiet wedding occurred at the home of the Rev. W. F. Brown this afternoon, the parties being Mr. William E. Buck and Miss Alice M. Connell.

Both young people are well known in this city. The groom is the oldest son of Mr. and Mrs. William Buck of the fourth ward; while the bride is the daughter of Mr. and Mrs. Ed. Connell. Many good wishes will go with them.

The newly wedded couple left for Indiana this afternoon at 2:30. They will make their home at Jeffersonville, Mr. Buck being conductor on one of the Indiana roads.

Careless Mothers.

Many mothers have permitted their children to die before their eyes when they might have been saved. Any mother who keeps house without a bottle of Acker's English Baby Soother at hand, runs a risk which she may regret. It has saved the lives of thousands of children, and is doing so every year. Prentice & Evenson druggists.

SECOND WARD SCHOOL.

Notice to Second Ward Parents and School Children.

The second ward school will not open on Monday, October 1st, as the new building is not ready for use. This statement is authorized by President Sutherland and Commissioner Kneff, of the Board of Education. Due notice will be given during the coming week, as to the date when the building can be occupied.

Flaming Fire in the Veins.

We hold positive proof that Acker's English Blood Elixir cures all blood poisons where cheap sarsaparillas and so-called purifiers fail. Knowing this, we will sell it to all who call at our store on a positive guarantee. Prentice & Evenson, druggist.

THE WEATHER.

At seven o'clock this morning the thermometer indicated 26 degrees above zero. Clear with northwest wind. At one o'clock p. m. the register was 56 degrees above zero. Partly cloudy with northwest wind. For the corresponding hours one year ago the register was 53 and 65 degrees above zero.

FARMERS REVIEW OF RELIGION.

This argufyin' useless pints
As where Cain got his wife,
Was Jonah swallered by the whale?
Is death the end of life?
Is jest the devil's Eden plan
That caught us long ago,
God has His "shall not" on some things.
The devil, "you shall know."

Now, where Cain got his wife's no odds
But will the de'il get me?
Not what I swoller, nor the whale.
Will change eternitee.
An' if I live so I can die
In peace when death shall call,
I'll die so that I'll live with joy,
If dyin' don't end all.

Now, I don't argue how the moon
Makes 'taters run to tops;
I plant 'em when the sign is right,
An' allus raise good crops.
I take the farmin' rules that's plain
An' reap jest what I sow;
I do the same with gospel truth,
An' puzzlin' pints can go.

SECURED A DIVORCE.

Another Developement in the Racine-Janesville Scandal.

The last chapter in the Wheaton scandal came out in Judge Winslow's divorce court at Racine yesterday. Samuel H. Wheaton was granted a divorce from Mary J. Wheaton, also securing the custody of the child, the ground being adultery.

The divorce was granted on account of Mrs. Wheaton's elopement with a Janesville man. It will be remembered that Mr. and Mrs. Wheaton came to Janesville about a year ago and resided in the city until the early part of last summer. Mr. Wheaton was book keeper for one of the manufacturing establishments of the city. He was a quiet, pleasant spoken, young fellow apparently much devoted to his wife, and she to him.

But Mrs. Wheaton differed from her husband in being especially fond of amusements. She enjoyed the mazy waltz more than she did the quiet of her little home in the first ward, and she gratified her taste frequently, not seeming to care much whether "hubby" went along or not.

At some of the parties during the winter she met a west side married man who became at once very attentive. The two were together considerably during the winter, and, one day, early in the spring Mr. Wheaton came home and found a note stating that his wife was well on her way to Chicago.

She and her paramour lived in Chicago awhile; but finally Mr. Wheaton learned of their whereabouts and persuaded his erring spouse to go with him to Racine, while her paramour went back to his own wife.

For a time everything went well. Then the Janesville man found Racine too strong an attraction and moved there with his family. Before long there was another chapter of gossip unfolded; another trip to Chicago made; and this time instead of forgiving, Mr. Wheaton at once took steps to secure a divorce.

WORK OF THE METHODISTS.

Janesville's District Reported Prosperous.

Janesville Methodists are as much in doubt as to who their next pastor will be as they were at the beginning of the week. The business of the Wisconsin state conference at Racine is well under way, but the progress of the "cabinet" in arranging appointments is uncertain.

Beaver Dam has been chosen as the place for holding the conference of 1889. Both that city and Beloit made applications for the session. To day's Sentinel says:

R. W. Bosworth represented the Janesville district as in a healthy working condition. Mr. Halsey, in reporting for the Milwaukee district, referred to his surprise and financial sacrifices in the appointment to the district last year. Over $45,000 had been raised for improving and building churches. He reported 700 conversions and emphasized class meetings and revival work and reaffirmed his devotion to Methodism and christianity. Twenty thousand dollars was expended in the erection of Trinity church, Milwaukee. A new church was dedicated at Pleasant Prairie, one at North Greenfield is in process of erection, valued at $3,000; another at Nineteenth avenue, Milwaukee, valued at $6,500; O. E. Goldthorp, presiding elder of Oshkosh district since Aug. 15, made a brief but strong and common sense report.

ANOTHER PICNIC-GROUND.

S. G. Clarke Talks of One For Next Summer.

"What truth is there to the report that the street railway is to be torn up and the franchise surrendered?" President S. G Clarke was asked while in Janesville the other day.

"None whatever. Of course, the road hasn't paid as much as I should like to have it, but I am in hopes next summer of making it do better. I am making plans to get a piece of property on some part of the line and fit it up for a picnic ground. If I can do that, and arrange to have cars running at regular intervals, the grounds ought to be a good thing for large picnics and for small ones as well."

EXCURSION RATES.

The Chicago & Northwestern Railway Company will sell excursion tickets for Chicago and return during the exposition as follows:

October 2d, 3d, good to return until October 8th.

October 6th, good to return until October 8th.

October 9th, 10th, good to return until October 15th.

October 13th, good to return until October 15th.

October 16th, 17th, good to return until September 22d.

October 20th, good to return until October 22d.

Fare for round trip, $3.90 including admission to exposition.

Will also sell excursion tickets for Milwaukee exposition Tuesday, Thursday and Saturday of each week, until October 20th. Fare for round trip, including admission, $2.40.

Renew Her Youth.

Mrs. Phœbe Chesley, Peterson, Clay Co., Iowa, tells the following remarkable story, the truth of which is vouched for by the residents of the town: I am 73 years old, have been troubled with kidney complaint and lameness for many years; could not dress myself without help. Now I am free from all pain and soreness; and am able to do my own housework. I owe my thanks to Electric Bitters for having renewed my youth and removed completely all disease and pain." THE WAGE WORKERS.

The Laboring Men Swinging Into Line for Protection to American Industries.

A Call For the Organization of the Wage Workers League of Janesville.

Grand Rally at Lappin's Hall on Thursday Evening, October 4th.

All Wage Workers in the City Requested to Attend and Enlist in the Good Work.

Music by the Bower City Band—Short and Pointed Speeches on the Wage Problem.

In compliance with a call signed by one hundred and sixty-seven wage workers of the city of Janesville, a meeting is hereby called to assemble at Lappin's hall on Thursday evening, October 4th, at 7:30 o'clock, for the purpose of organizing the Wage Workers League, in accordance with the spirit of the call. The Bower City Band will be present and furnish music for the meeting, and B. F. Dunwiddie, Esq., Captain Pliny Norcross and Colonel Nicholas Smith, will address the meeting on the Wage Problem, and its bearing on the tariff. Every wage worker in the city is cordially invited to be present.

The call for this organization reads as follows:

"We, the undersigned, residents and laboring men of the city of Janesville, Wisconsin, believing that our interests will be best promoted by a continuance of the wise and just policy of protection which protects and fosters American industries and encourages home production, thereby insuring to us American wages and protecting us from competition with pauper labor of foreign countries, and further believing that the election of Harrison and Morton, the uncompromising advocates of the principle of protection to American labor, will best assure the desired result, do hereby express our desire to enter into an organization to be known as the "Wage-Workers League," which shall have for its object the success and advancement of the party most devoted to our interests:"

The Sweetest Girl in School.

"She's the sweetest girl in school!" enthusiastically exclaimed one young miss to another, as they passed down the street together. "Edith is so kind, and gentle, and unselfish, every one likes her. And she has lovely golden hair and pretty eyes. Isn't it a pity her complexion is so bad; it spoils her looks. And then she has such dreadful headaches!" The girls skipped along, but it happened Edith's mother had heard what they said, It set her thinking. What could be done for those headaches and the rough, muddy complexion, that was such a trial for her gentle daughter. She recalled what she had read of Dr. Pierce's Golden Medical Discovery, and on the spur of the moment she slipped into a drugstore and bought a supply. Edith took it faithfully, with the result that it cleared her disordered blood, relieved her headaches, made her skin soft, fair and rosy, and now she is not only the "sweetest girl in school", but the most beautiful.

ENERGY VERSUS LUCK.

The Ignorant Superstition Which Prevails in Regard to the Latter.

"Give a man luck and throw him into the sea," is, perhaps, one of the oldest sayings extant all over the world, for we find its equivalent in every language spoken. It is a pity we are not all gifted with this fortunate grace; if we were we need never trouble at any time. But it happens, however, says the London *Standard*, that the so-called lucky ones are very few and very far between; and yet, to note the observations of every-day life, one would imagine that the contrary were the case—that is to say, if we may judge from the fact that everybody asserts that every body else is lucky except himself. "I never knew such luck as that man has," says Jones of Brown, and Brown of Jones remarks that "Jones has the very devil's own luck—every thing he does turns out well!" and still they may be both in the same boat struggling against impending adversity, or calmly gliding along the stream of comparative prosperity.

It is merely the outcome of an unfathomable discontent that pervades all, or nearly all human creatures—that semi-jealous feeling of each other's neighbor that finds lodging in every breast. Now, risking the wrath of the superstitious and the believers in omens and odd numbers, we firmly maintain that there is no such thing as luck at all. Perseverance and circumstance are the secret of all success, and, as nothing succeeds like success, luck is the natural sequence of perseverance. It is mainly the kickers and lazy people who perpetually rave about lack of luck, forgetting that, if there be any virtue in this tantalizing talisman, it is very like the philosopher's stone, and requires a considerable amount of delving and diving to secure.

Shakespeare gives evidence that he was not free from this peculiar failing. In the "Merry Wives of Windsor" he makes that genial and obese old rogue "Falstaff" say to "Dame Quickly," "Good luck lies in odd numbers. They say there is a divinity in odd numbers—either in nativity, chance or death!" This idea is, of course, founded on the Pythagorean system, "All nature is a harmony; man is a full chord, and all beyond is Deity, so that nine represents Deity." And thus A major chord consists of a fundamental or tonic, its major third and its just fifth. Seven notes complete the octave, and nine is Deity. The odd numbers being the primary notes of nature, it is easy to see how they came to be considered the great or lucky numbers, but then the luck belongs exclusively to the numbers and not to the application thereof, as is the popular impression.

But to enter into or properly explain the positions and qualities of odd numbers would paralyze the great Euclid himself. So, to return to our luck. If there be such an uncanny thing, how is it that never since the creation has one man ever been known to credit his success in life to luck? His downfall, yes, to bad luck; his rise and progress to luck, good, bad or indifferent? Never. If any one had the temerity to suggest such a thing the notion would be scouted as not only preposterous but impious. The answer would be something like this: "My success, sir, which you vulgarly attribute to luck, has been achieved by sheer hard work and determination; and what I have earned I deserve." And in most cases it would be right.

Certainly there are at times fortuitous circumstances that make a man successful, whether he will or not, but then such is not luck, it is pure accident. And as we are all liable to meet with disagreeable accidents, so are we all likely to meet with agreeable ones. Only we never own it, supposing we think so. We go on declaring that "it is better to be born lucky than rich," and yet we are quite incapable of explaining what we exactly mean. In the commercial sense—and it is only in the commercial sense that we think upon the subject—if we are rich, we don't want luck, and if we are lucky we are rich. Lord Beaconsfield says in "Venetia:" "Luck, is he who has neither creditors nor offspring, and who owes neither money nor affection—after all the most difficult to pay of the two." This is so cynically true that not a soul believes it.

Faith in the charm of the horse-shoe is held sacred to this day, in town and country, by ignorant persons; but we do not imagine that they nail it up over the door as a protection against witches, as was once the custom. It is supposed to rather bring good luck than to avert any evil. Many otherwise sane individuals will stoop to pick up a shoe in the street, and others would rather deliver up all their goods and chattels than walk under a ladder. There is more common sense in this latter idiosyncracy than may appear at first sight. One does not run so great a risk of receiving a paint-pot or a brick, that may be on the journey from the roof to the pavement, outside the range of the ladder as immediately under it. This is about the only superstition that is worth preserving.

Generally speaking, logical people discard the conceit of any thing coming to pass through mere "luck," though numbers on the surface profess unshakable belief therein. As a rule, those who complain about their bad luck are those who complain about any thing—those who expect fortunes to drop into their laps without any exertion on their part to obtain them. People are frequently heard to lament they are down on their luck, and then they absolutely do sit down on their luck and stay there. Most things come to the man who works, but very few to the man who calmly sits down and waits. Nothing upsets superstition as much as common sense. There is no such quality as luck, except it be in a very unknown quantity. People have had luck when they can not take the rough with the smooth; when they wear out the smooth and forget that it ever existed. Good luck means good intentions well carried out; and, after all, the only lucky man in the world is he who is lucky enough to get what he deserves.

Flash-Light Photography.

A Connecticut Yankee suggests the use of flash-light photography as a means of protecting bank vaults from burglars. He says: "I would have a camera placed in a position where it would command in the field of the lens a space of ten feet square or more in front of the door of the vault and have the other apparatus so arranged that as soon as tampering with the vault door was attempted the whole would be placed in operation. My plan would, of course, include retaining the burglar alarm connecting with police headquarters. As soon as the burglars had begun operations the police would be alarmed, and at the same instant a picture of the men would be made by the camera and flash-light combined, so that even if the man escaped the police they would leave behind them evidence which would very probably eventually result in their detection."

Knowledge and Pleasure.

Pleasure is a shadow, but knowledge is ecstatic in enjoyment, perennial in fame, unlimited in space, and infinite in duration. In the performance of its great offices it fears no danger, spares no expense, looks into the volcano, dives into the ocean, perforates the earth, wings its flight into the skies, enriches the globe, explores sea and land, contemplates the distant, examines the minute, comprehends the great, ascends to the sublime—no place too remote for its grasp, no sphere too exalted for its reach.
